

Having served the Greater Toronto Area for over 25 years Restorex Contracting Limited has solidly established itself as an industry leader in the field of parking structure and building envelope restoration.

Through decades of experience, combined with secure financial resources, Restorex Contracting Limited has the ability to undertake large scale projects as well as smaller service oriented works.

We specialize in many aspects of construction ranging from concrete work to waterproofing systems. With a professional team of project managers and skilled restoration workers no job is too big or too small.
